Hi Peter,

Hope you're doing well. We need to align on cost optimization initiatives in the coming weeks. Let's catch up on Thursday or Friday to plan ahead.

Key areas to tackle:

- Ensuring sandbox accounts have proper budget alerts.
- Providing guidance on efficient Lambda/Step Functions deployments.
- Identifying and eliminating cost leakages (e.g., shutting down unused regions where GuardDuty is incurring costs).
- Reviewing CloudTrail—should it be applied estate-wide or case-by-case?
- AOB

We'll also highlight current costs and quantify potential savings to show the value of these efforts.

Let me know what works for you.
